

**SUNRISE
METAL SHOP**

2022-23 CATALOG

WELCOME

We are excited to present our 2020 catalog to you. This catalog is designed to help you dream, design and build the product that you're looking for!

We offer quite a few materials and colors for our products including painted, powder coated and aged colors. Our selection of aging colors are very unique and are never exactly repeated, but have character that no paint can ever do!

OUR STORY

The Metal Shop was established in 1958 as Topeka Metal Shop. In 1971 the name was changed to Sunrise Metal Shop, specializing in custom (attention-to-detail) jobs.

Every product is a reflection of four generations of metal fabrication dedicated to durability and quality standards that meet or exceed your needs! Our family of skilled craftsmen provided many hours to produce a product that will last you a lifetime!

Thanks to each and every one, we value you as a customer! Without you we wouldn't exist. We consider it a privilege to serve you and strive to provide the quality and service you deserve!

God's Blessings wished to you all,

JOHN - LEE - DEVON
