INTRODUCTION

Make what matters. At Coppes Napanee, we turn design intent into cabinetry that fits, functions, and lasts. Our process balances a century and a half of craft with precise engineering to ensure every install is clean and every finish stays true. We build for the architects, designers, and builders who require disciplined construction and reliable partnership.

OUR LEGACY

150 Years of Material Honesty.

Founded in 1876, Coppes Napanee is the oldest cabinet company in America. From crafting some of the iconic Hoosier cabinets of the early 20th century to inventing the modern Lazy Susan, we have always built work that serves people. Today, under the family ownership of the Mast Brothers, we continue to refine the pioneering spirit of Northern Indiana craftsmanship.

150 YEARS OF CRAFT

THE COPPES DIFFERENCE

Construction that rewards the installer and the homeowner.

Every cabinet we handcraft is constructed with eight woodworking features that define the Coppes standard, including hardwood frames, dovetailed drawer boxes, full mortise and tenon joints, and more. This unwavering commitment to enduring quality and beauty is the reason so many of our customers proudly pass their Coppes Napanee cabinets from one generation to the next.

FINISH AND COLOR

Finishes selected for light, touch, and time.

Whether you require a custom paint or a stain that highlights the natural woodgrain, our finishes are designed to respect the environment they live in.

We support your design intent with rapid quality samples that look true in photos and in life. Select from hundreds of our established options or provide a sample for a precise custom match.

UTILITY AND ORGANIZATION

Purposeful performance. We solve integrations and profiles with disciplined builds and clear technical support. Our all-wood, adjustable drawer inserts and custom pullouts are engineered to remove friction from daily use. Every accessory is constructed with the same commitment to material honesty as the cabinets themselves.
